ALGORITHM

Step 1: Start the program.

Step 2: Enter the name of the community.

Step 3: Enter the drainage blockage code:

- 0 = No blockage
- 1 = Partial blockage
- 2 = Severe blockage

Step 4: Enter the standing-water code:

- 0 = No standing water
- 1 = Some standing water
- 2 = Severe standing water

Step 5: Enter the rainfall code:

- 0 = Low rainfall
- 1 = Moderate rainfall
- 2 = Heavy rainfall

Step 6: Enter the number of complaints received from community members.

Step 7: Validate the inputs. If any code is outside the allowed range or the number of complaints is negative, display an error message and request the information again.

Step 8: Initialize the maintenance priority score to zero.

Step 9: Add points to the score according to the following conditions:

- If blockage code = 2, add 4 points.
- If blockage code = 1, add 2 points.
- If standing-water code = 2, add 3 points.
- If standing-water code = 1, add 1 point.
- If rainfall code = 2, add 2 points.
- If rainfall code = 1, add 1 point.
- If complaints are 5 or more, add 2 points.
- Otherwise, if complaints are 3 or more, add 1 point.

Step 10: Determine the maintenance priority:

- If the score is 9 or more, classify it as **URGENT**.
- Otherwise, if the score is 6 or more, classify it as **HIGH**.
- Otherwise, if the score is 3 or more, classify it as **MEDIUM**.
- Otherwise, classify it as **LOW**.

Step 11: Select the recommended action:

- **URGENT:** Notify the responsible local team and inspect the site as soon as safely possible.

- **HIGH:** Arrange a priority inspection and plan maintenance.
- **MEDIUM:** Schedule a drainage inspection and monitor the location.
- **LOW:** Continue routine drainage maintenance.

Step 12: Display the community name, priority score, priority level, and recommended action.

Step 13: Ask whether the user wants to assess another community.

Step 14: If YES, repeat the process from Step 2. If NO, continue to Step 15.

Step 15: Display a message indicating that the program has ended.

Step 16: Stop the program.
